The Inniswood Garden Society (IGS) was created in 1984 to assist with the growth and development of Inniswood Metro Gardens, a special facility of the Franklin County Metro Parks.

IGS has supported the gardens for over 30 years. IGS, partnering with the Franklin County Metro Parks, contributed to the fundraising, planning and development of the Sister's Garden, as well as providing funds for the renovation of the Rock Garden, the fence border plantings, the Inniswood website and numerous other improvements throughout the gardens. IGS has sponsored horticultural and cultural programs for its members and the public, among them, a 3-month art exhibit, David Rogers' Big Bugs.

Consider joining us to help preserve the horticultural wonders of Inniswood Metro Gardens which serves as a source of beauty, education, and inspiration for hundreds of thousands of visitors annually.
